

BIG Question: How was life different in WW2?

The children will take a trip back in time with this history-based topic, allowing them to look at the war through the eyes of a child. They will use books, films and first-hand recounts to discover what life was like in the war years. They will test a variety of materials in science for durability and hardness with the aim of constructing their own Anderson shelter. A trip to Flambards will enhance the learning and an end of term VE day party will bring a celebratory climax to the topic.

Practise at Home:

Children are expected to read EVERY night. They are now expected to know their times tables (2, 5, 10, 3, 4, 8) if they don't they must continue to practise.

They will have IXL homework on Fridays to be completed by the following Friday.
